

OPEN RESEARCH CONTENT ARCHIVE (ORCA)

AARON LEFOHN

NOV. 11 2020

What is ORCA?

Goal: Greatly increase quality of 3D assets available to graphics research community

Launched in 2017

Created "By Researchers, for Researchers" (NVIDIA Research)

Why ORCA?

- Guide research
 - Simple content leads researchers to create limited inventions that fall short when applied to real-world content.
 - Freely available high-quality 3D content helps researchers define important problems and create more robust solutions that can have higher/sooner impact to industry.
- Ca. 2016 graphics research assets
 - Cornell box
 - Sponza
 - San Miguel
 - No animations, no characters, no outdoor worlds, small scenes, ...
