## Meeting Management

- ASWF uses "[LFX PCC Meeting Management service](#)"
- Create in Meeting Management
  - Monthly TSC meeting is already created, recurring, so nothing needed on an ongoing basis
  - Manage > "Share Meeting" is the link to share (goes through registration process if they're not already in)
    - e.g: <https://zoom-lfx.platform.linuxfoundation.org/meeting/91366650362> which is our monthly TSC meeting
- Also have to add it in the OpenFX calendar, but do that after the main one -- this doesn't drive anything, except emailing the mailing list.
- Then send reminders: 1 week before, 1 day before
- After prev meeting:
  - Schedule next meeting on the openfx [calendar](#) (unless it's already done as recurring)
    - It will notify the [openfx-discussion](#) list
  - Publish minutes to [wiki](#)
  - Add recording from <https://openprofile.dev/my-calendar> (go to Past Meetings)
  - Publish meeting reminders on discussion list, with link above
- Meeting announcement template:
  - The next OpenFX ASWF TSC meeting will be on Sept 6 at 11am EDT. Topics will include **FILL IN HERE**. The meeting is open to all; it will be on [Zoom](#) and minutes will be posted afterward on our [wiki](#). If you have topics you would like to see addressed, please email the mailing list no later than the previous day at [openfx-discussion@lists.aswf.io](mailto:openfx-discussion@lists.aswf.io).
- To change a single meeting time for a recurring meeting (e.g. the monthly TSC meeting):
  - delete the affected instance of the meeting in [Meeting Management](#) , then schedule a non-recurring meeting for the new date/time.
    - You can get to it by going to the calendar view, then clicking the ellipsis menu and delete meeting is an option.
  - Update the [OpenFX calendar](#) too
  - John Mertic said (Oct 30, 2022) that they're working on an improved process for this.
